SUMMARY

Computer Science undergraduate specializing in full-stack web development, AI-powered applications, backend systems, and application security. Experienced in building REST APIs, authentication systems, AI integrations, threat detection pipelines, and responsive web applications using JavaScript, TypeScript, Python, React, Next.js, Node.js, and MongoDB.

EDUCATION

Bennett University

Bachelor of Technology in Computer Science and Engineering

– CGPA: **7.88** / 10

– Senior Secondary (Class XII): **82.2%**

Greater Noida, India

2024 – 2028

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C++, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication, API Integration

Databases: MongoDB, MySQL

AI & ML: Gemini API, Groq API, OpenAI API, Prompt Engineering, Whisper, AI Integration

Security: Prompt Injection Detection, Jailbreak Detection, PII Detection, Input Validation, Rate Limiting

Tools: Git, GitHub, Postman, VS Code, Figma, Vercel

PROJECTS

Visor – AI Security Gateway

GitHub

Next.js, TypeScript, Node.js, Express.js, MongoDB, Groq

- Built an AI security gateway with **4+ threat detection layers** for detecting prompt injection, jailbreaks, malicious instructions, and sensitive data leakage in LLM applications.
- Designed a **multi-stage LLM security pipeline** spanning pre LLM inspection, threat detection, policy evaluation, LLM execution, and post-LLM response validation.
- Engineered secure REST APIs with **JWT authentication, input validation, rate limiting, prompt sanitization, risk scoring, severity classification, and security-event persistence.**

InterviewX – AI Interview Preparation Platform

GitHub

React.js, Node.js, Express.js, MongoDB, OpenAI API, Whisper

- Built an AI-powered interview preparation platform using **OpenAI API** for dynamic technical question generation and simulated interview sessions.
- Implemented **JWT authentication, REST APIs, interview session management, persistent history, and database-backed user profiles.**
- Integrated **Whisper speech-to-text** to convert spoken interview responses into transcripts for automated analysis.
- Developed AI-based evaluation workflows to generate **personalized feedback** on interview responses and performance.

RESEARCH PUBLICATION

Building the Decentralized Future: Blockchain Innovation with Ethereum at the Core

2025

Research Paper – Springer, ICCNet 2025 (Manchester Metropolitan University, Manchester, United Kingdom)

- Published and presented research on **Blockchain, Ethereum, and Web3 technologies**, analyzing their role in decentralized applications and emerging digital infrastructure.
- Received the **Best Paper Award** for the research contribution and presentation.

LEADERSHIP EXPERIENCE

Entrepreneurship Cell, Bennett University

2026 – Present

Vice President, Operations

Google Developers Group (GDG) Bennett University

2025 – 2026

Design Head

Smart India Hackathon – Bennett University

2026

Design Head, Internal Hackathon
